- ♥ Healing and Reconciliation with self and the earth
- ♥ Collaborating gracefully to remove impediments to love

Fields of Grace® Gathering with international teacher, business consultant, visionary, poet, Master NLP practitioner and pioneer in the field of human possibilities, Stephen Victor

What will benefit people in Brisbane, Toowoomba, Lockyer Valley, Gold Coast & Hinterland, Northern Qld, Byron Bay & Tweed?

Releasing oneself of the energetic shock and psychological grief of living through, while others did not, the difficult and fierce Grace of turbulent weather, floods and all associated consequences.

Coalescing one's center in one's belly; grounding oneself to the center of the earth from one's own center; and, grounding one's feet into the earth's surface.

Identifying, framing, bringing present and making tangible the positive personal, familial, communal, earthly and spiritual change resulting from experiencing the Mystery's difficult Grace.

Clearing impediments to love and individual creative expression.

Why is this important?

In terms of the:

past: freeing oneself from the constraints of shock, fear, loss and grief;

now: freeing one to be here now; to feel the Mystery's Grace and life's poetics; and,

future: enabling one to live and creatively express their own life well in their own way.

With what approaches?

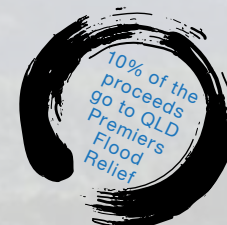

As an instrument of the human heart, Stephen uses approaches such as NLP, Systems of the Human Heart, Poetry, Andrean Mysticism, Energetics, Constellations, Sente Systems.

If you can muster the courage and self-compassion, you too can move into the life you long for.

About Stephen

Stephen assists people in the art of: living genuinely, learning to love oneself, others and the Earth daily with compassionate intent and attention toward living a poetic life of one's own making - while creatively expressing what the Mystery is asking of you.

Philosophical orientation:

We are not in this life to live smaller lives than we are capable; we are not here to hide from our grandeur nor refuse experiencing the sweet poetics available to everyone in this life irrespective of circumstance. Rather we are here to embody and creatively express the grand "Being" that each human being is. The "Being" that you are has NOT been evinced by your personal history nor your biography. Nor do humanity's actions and thinking inform about your staggeringly profound beauty, grandeur, dignity, innocence and brilliant creative potential. You are NOT what past and contemporary institutions and others have led you to believe! You are wholly and utterly distinct from those stories and much more!

Our individual unfolding is informing each of us to say yes to the changes the Mystery is proffering: to suspend the dogmas and ideologies of your acculturation, upbringing, education and training and experience, and begin now opening yourself to the self that you are: to Life's Universal Intelligence and Wisdom - the Wisdom of the Human Heart - and begin living your own life, in your own way. Live, now, the ever changing creative expression that you are! Do so by becoming Wisdom's Consort.

Relevant questions for those working with Stephen:

- Have I discovered that who I am is much more than my body, thinking, personality and "identities" I possess?
- Have I discovered that I am much more than my relationships and the work I do?
- Am I aware of my own staggeringly profound beauty, dignity, innocence and unfathomable creative potential?
- Am I aware that Life is asking something of me moment to moment? Am I attending to this?
- Am I aware that most of what I give my attention over to pales in relation to what awaits my attending?
- Am I truly living my own life? In my own way?
- Am I faithfully honoring the expression that is truly my mine?
- Am I saying yes to Life?

Biography:

Stephen Victor works as a teacher, consultant and writer. He deploys his particular form of genius in assisting individuals and organizations align with a Wisdom and integrity that lies beyond a personality, sociocultural structures and corporate by-laws. In doing so, he enables others to more fully live their own lives having the creative expression they desire.
